This is a really boring essay. I'll admit. It's super boring. But sometimes you just gotta read what you gotta read and you gotta do what you gotta do.

Now I just got to write some stuff to pad the time. Have you seen my website? It's at davidcao.xyz. You haven't? Check it out. Oh, I also have a blog. It's at davidsblog.xyz.

One of my favorite past times is playing typeracer. However lately I've been cheating on typeracer and just using MonkeyType. I know I know. I also shouldn't be looking down on my own typing game CowType. Well it is what it is.

I'm also going to make the text of this super big so that it takes up to pages and looks like a lot but it's actually not a lot. Okay how many words am I at. How come this is taking so long. Is the audio thing done yet? It is? Okay. I wonder how this will sound with an AI generated voice. Sheesh and dam.
